British Advance Stopped

British advances have been halted by brave units from Spain, Germany, and Italy. Reports from British prisoners have reported a shortage of food, medicine and fuel.

Additional units are being shipped to the area and victory is expected soon.

A Puppet Exposed

Churchill's puppet Roosevelt has been exposed for the liar he is. His claim of free trade has been exposed and the Congress and the American people see him for the fool he is.

His lies of free trade for all are clear. His refusal to even reply to our request for trade is yet another example of the American Governments blatant violation of the Neutrality Act.

Acts of Desperation

Churchills ever growing lies out of London are showing a growing sense of Desperation. To date his lies that have been published and his lies to the American people and press have not giving his puppet Roosevelt enough ammo to set aside the will of the American people and that of Congress.

Now he claims that Germany is shooting POWs and even allies in our war of Freedom. All free thinking people should remember we did not declare on England, France, and Russia... they in an attempt to expand their empires saw us as a threat nothing more nothing less.

The so called executions are easily refuted by the Swiss and other "Independent" sources.

Come of Churchill stop the lies. They serve you no good.
